Corden EPS Bitutape

Corden EPS Bitutape is a polymer modified, bitumen double-sided adhesive tape faced on both sides with a release paper.

Applications

- Fixing protective boards to waterproofing membranes.
- Sealing overlaps between polythene sheeting.
- Pre-formed corners and profiles.
- Lap jointing of most types of DPC's.

Product Specification

Physical Description	Test Method	Units/Value
Form		Poly modified bitumen
Thickness		1.5mm

Installation

Surfaces should be clean, dry and free from contamination. The use of a bristle brush is recommended. Remove any rust using a wire brush.

Supply

In rolls: 75mm wide x 15 metre or 100mm wide x 15 metre

Storage

In a dry area avoiding excessive heat.

Health & Safety

Refer to the Health and Safety data sheet.

Advantages

- Economical
- Ease of use
- Easily cut and trimmed to size
