

Description

Xeric-Prime is a solvent based, bituminous solution, designed to penetrate and seal porous surfaces prior to the application of Xeric, or similar waterproofing membranes, flashing tape, DPC's and similar bitumen bonded products.

Advantages:

- Easy to use.
- Provides a good band.
- Can be used with most bitumen based adhesive products.

Application:

- Concrete.
- Brick and blockwork.
- Ferrous metal.

Note: Do not use over tar-based product.

Installation:

Surface should be clean, dry and free from contamination. The use of a bristle brush is recommended. Remove any rust using a wire brush.

Technical Data:

Colour:	Black
Coverage	6-7m ² /litre (approx.) at normal temperature, dependant on the porosity of the substrate.
Drying Time:	2-3 hours, dependent upon conditions.
S.G:	0.89 – 1.0
Flashpoint:	40°C

Supply

5 litre and 25 litre containers.

Storage

Flammable material containing white spirit. Store in a cold dry place. Protect from extremes of temperature and keep out of direct sunlight.

Health and Safety

Flammable material; use in well ventilated areas. Keep away from sources of ignition. Refer to material safety data sheet.
